## HI !

I am a French UI/UX designer from l'École de design Nantes Atlantiques with an **interaction** and **graphic design** background. I am passionate about bringing interactivity in data visualization. A user-centered methodology allows me to design services in a creative and relevant way.

## TOOLS

-  Illustrator
-  Indesign
-  After Effect
-  Invision
-  Sketch
-  HTML/CSS
-  Javascript
-  Arduino

## SPECIALITIES

-  User Experience
-  User Interface
-  Visual Design
-  Information Design

## METHODOLOGY

### User-centered

Conceptualize needs based on user and context understanding.

### Try & Die

As a try & die gamer, I used to test prototype & iterate with users in order to improve a concept.

## LANGUAGES

### French

Mother Tongue

### English

Professional competence

## ABOUT ME

*I am*

- Dynamic
- Creative
- Curious
- Pixel Perfect Master
- Cat lover

*I like*

Sport

Photography

Astronomy

## EDUCATIONAL BACKGROUND

2014 TO 2016 - IN PROGRESS

### MASTER DEGREE (4<sup>TH</sup> & 5<sup>TH</sup> YEAR) IN INFORMATION DESIGN

Having great workshops about how to manage a project. Applying skills in order to create visualizations and services based on data and information.

2012 TO 2014

### BACHELOR DEGREE (2<sup>ND</sup> & 3<sup>RD</sup> YEAR) IN INTERACTION DESIGN

Mastering graphic design tools & programming skills. Assimilating and applying a user-centered methodology through projects with clients.

2011 TO 2012

### FOUNDATION YEAR IN DESIGN

Discovering design basis through workshops. Learning creative processes in order to manage a project.

## COMPETITION

MAY 2015

### HYBLAB DATASPORT - HACKATON 2<sup>ND</sup> PLACE

Working in a team with people that I don't know. Creating visualizations based on data who can represent high-level sports in the region.

SEPTEMBER 2014

### OPENDATA - HACKATON PARTICIPATION

Collaborating with programmers students in order to create a service for the city of Nantes based on its open data.

## WORK EXPERIENCE

SINCE 2010

### FREELANCE

Since 2010 I have been working as a freelancer. It allows to have real projects with professionals people. Recently I worked with Hachette for illustrations. With this projects I learned how to work with client and how to hold a company. Also, I can carry on my network by working with them like I did with Atelier Iceberg.

APR 2016 TO AUG 2016

### EXL GROUP - NANTES INFORMATION DESIGN INTERNSHIP

During this internship I learned a lot about Business Intelligence. As a Ux/UI designer, I worked closely with clients in order to enhance their needs. I could improve and communicate my vision of design across diverse projects.

OCT 2014 TO JAN 2015

### ONEOVERZERO GMBH - ZÜRICH UI/UX INTERNSHIP

The team of OneOverZero welcomed me in order to do some UI/UX missions. I learned a lot on the client side of a project. I improved my programming and interaction design skills.

SEP 2013 TO OCT 2013

### ATELIER ICEBERG - NANTES INFORMATION DESIGN INTERNSHIP

I worked on posters and improved my graphic design skills. I discovered the methodology for data visualization's projects. I worked on network diagram projects mostly with Gephi.

2010 TO 2014

### SUMMER JOBS

Every summer I used to work in little jobs like warehouseman or other. In parallel I made illustrations for my pleasure and some freelance job when I had the occasion.
